

Dream of Pursuing Class 2B Motorcycle Licence

But hesitating due to height and weight?

- Feet unable to touch the ground..
- Unable to handle the weight of the motorcycle...

Don't Worry! Your dream will soon be a reality!

We have specially brought in Honda MSX for customers with such concerns.

Pros:

- ✓ The seat is about 4cm lower in height as compared to other same class models. Thus, it's easier for your feet to touch the ground for better stability.
- ✓ It's about 26kg lighter compared to other same class models. This allows you to have better control and be able to handle the motorcycle better.

Many customers with such concerns have fulfilled their dream here..

Enrol now to start pursuing your dream!
